## Click on "Add"

Name	1	RTT	Protocol	Address or URL	Add
					Get from the web
					Edit
					Remove
					Check

## Enter the following configuration

	GINC:	nsec.arnor.org	
Type:		DNS over QUIC	Ŷ
IP address and	d optional port:		
ONSSEC SU	pported	sdns://	
	ptions		
IS over QUIC o			
is over QUIC o Hostname:	nsec.arnor.or	9	
is over QUIC o Hostname: Hashes:	nsec.amor.or	9	

After clicking on OK twice, it will ask you if this should be the default, one. Agree by clicking on "yes". That's all folks :)
